

Robert K. Dunn Perpetual Charitable Trust Fund Grant Guidelines

Through the Robert K. Dunn Perpetual Charitable Trust Fund (DPCTF), The Community Foundation of Kankakee River Valley will provide grants to non-profit community organizations in the Greater Kankakee River Valley Area. The DPCTF co-trustees select grants for funding in response to applications submitted through the Community Foundation's online grant application. The co-trustees will submit their recommendations for final approval to the Community Foundation Board of Directors.

Grantmaking Priorities

The DPCTF co-trustees believe that it is necessary to invest its limited funds where they will have the greatest impact on youth. Priority will be given to projects and programs directed at youth that:

- Promote participation and racial integration of at-risk or vulnerable youth in team sports
- Assist youth who are abused, neglected, delinquent, or mentally, physically, or emotionally challenged; or
- Reduce violence perpetrated in the community.

Projects Generally Not Funded

While the DPCTF attempts to remain flexible to youth needs, in general, grants are not intended to support:

- Religious purposes (However, grants may be given to religious organizations for programs or projects that are consistent with the DPCTF grant priorities)
- Purchase of advertising
- Capital or operation debt reduction; however, capital items needed for training purposes will be considered
- Political campaigns or to support attempts to influence legislative issues of any governmental body
- Multiple proposals from one organization

Are There Expense Categories Discouraged by the Community Foundation which could jeopardize selection?

- **Expenses for technology with shorter-term life/use.**
- **Administrative costs (particularly salary, fringe benefits, space, general office expenses such as utilities, office equipment, supplies, etc.)**

The Community Foundation of Kankakee River Valley operates without discrimination as to race, religion, sex, and national origin in considering grant requests from agencies and organizations.

Community Foundation Grant Making

The Community Foundation will consider only one request from a single (organization) entity. Proposals are reviewed, evaluated, and recommended by the DPCTF co-trustees with the Community Foundation Board of Directors approving the final award recommendations. Because the Foundation cannot fund all the requests it receives, the DPCTF co-trustees and the Board of Directors rely on the following general policies and considerations for award selections.

- Grant applications are to adhere strictly to the grant application instructions.
- Grant awards are to be made only to those nonprofit organizations and programs operating within the Greater Kankakee River Valley Area.
- Awards through the Robert K. Dunn Perpetual Charitable Trust Fund are made only to organizations currently holding charitable 501(c)(3) classifications as designated by the Internal Revenue Service, or to quasi-governmental agencies, e.g., school districts, libraries, park districts, etc.
- Awards are intended to be made for one year at a time. Multiple-year awards may be considered if circumstances justify; however, potential for sustainability after the grant award period may receive favored judging. Please articulate commitments for sustaining your program.
- The evaluation process may include an on-site visit by Foundation representatives.
- Awardees may reapply in subsequent years by re-submitting full applications in subsequent funding cycles.

How Does an Organization Apply?

Carefully read and adhere to the grant application instructions. It is important that all requested information is provided. If you have questions, you may contact the Community Foundation Office at 815-939-1611 or by email at mia@cfkrv.org. The link to the online application is available at: www.cfkrv.org under the Grants tab.

How Are Grant Applications Evaluated?

After initial review and screening by the Community Foundation Administration, the DPCTF co-trustees review and recommend applications for awards primarily based on the following criteria:

- The visibility and impact of the project.
- The project should be currently actionable
- The need for and the significance of the project should be obvious and relatively simple to communicate to the community.
- Successful outcomes and the impact of the project should be readily identifiable, measurable, and reported to the community via the media.

- The receiving organization needs to demonstrate that it has the necessary experience and capacity to successfully implement and execute the project.
- The proposed project should demonstrate how it is creative and how it has the potential to stimulate the interest of the public and media.

Grant Follow-up

All recipients of a Robert K. Dunn grant must select a reporting option to complete the end of grant evaluation for their project/program. All follow up forms will be available for viewing and submission in the grant application portal.
